THE CHEER ACADEMY DIFFERENCE

Cheer Academy prides itself on its empowering approach to recreational youth cheerleading. From our trademark cheer lingo to our L.I.F.T. training method, Cheer Academy Summer Sessions provide safe, modern cheer training that strengthens skills, builds confidence, creates connection, and celebrates spirit.

Snapolades | finger snaps (our version of applause!) to show accolades for teamwork and effort.

L.I.F.T. | Look, Include, give Feedback, say Thank You! Coaches notice and engage all athletes, support with guidance, and show appreciation for their effort.

Core Four | we encourage four internal tools to conquer a challenging moment: energy, attitude, teamwork, spirit.

WHAT'S IN YOUR TECHNIQUE TOOLBOX?

We empower youth cheerleaders to use their tools!

Cheer Academy staff set the standard for excellence in youth cheerleading through expert instruction, intentional leadership, and genuine passion for developing young athletes.

Comprised of highly skilled cheerleaders from colleges across the country, Cheer Academy staff are trained to lead with confidence, positivity, and purpose. Their hands-on instruction emphasizes safety, strong foundations, and proper skill progressions while inspiring creativity, athleticism, and self-belief.

All Cheer Academy staff hold USA Cheer Safety Certifications, Cheer Academy Certifications, and have completed training on athlete protection and injury awareness, including CDC's Heads Up Concussion Training. Additionally, Cheer Academy staff have been trained to recognize, resolve, and report bullying among cheerleaders, for which Cheer Academy has a Zero Tolerance Policy.

More than instructors, Cheer Academy staff serve as motivating mentors and role models to empower the youth cheerleaders at our Summer Sessions to grow as performers, leaders, and athletes.
